

To: the Delta Stewardship Council.

I cannot make it to the meeting in Brentwood tomorrow but want my voice to be heard!

I am very concerned that the DSC intends to make dual conveyance, i.e. the Delta Tunnels a promoted option or preferred alternative at this time—it needs comprehensive review and analysis which was required by the Delta Reform Act. There needs to be a benefit cost analysis, etc.  
There are no federal permits or a financial plan so WHAT IS THE RUSH?

thank you for your consideration,  
Michele
